

## REMARKS

### Allowable Subject Matter:

The Applicants hereby gratefully acknowledge the indication of allowable subject matter in claims 1-12.

### Specification:

The Examiner objected to the disclosure because of an informality in that the patent number of the parent application was required to be inserted at paragraph [001]. In response, the Applicants have amended the Specification at paragraph [001] to include the parent application patent number.

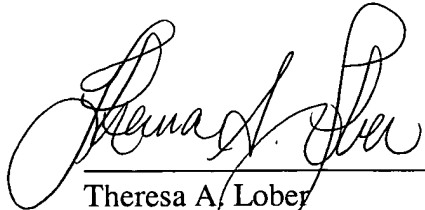

### Oath/Declaration:

The Examiner required a new declaration identifying all prior applications having a filing date before that of the instant application and on which priority is claimed. New declarations in compliance with 37 C.F.R. 1.67(a) are herewith provided.

An Information Disclosure Statement accompanies this response.

Respectfully submitted,
